He is a member of the adjunct faculty at Temple University School of Podiatric Medicine, and he is also the founder and director of the Eastern Virginia Graduate School of the Podiatric Surgery Residency.

Patrick S. Agnew, DPM, FACFAS

Coastal Podiatry, Inc.

Virginia Beach, VA

Financial Disclosures: Dr. Patrick S. Agnew has indicated he is on the Valeant and MiMedx speakers bureau and has received grant/research funding from Smith & Nephew and MiMedx.

-Also listed as an investigator for another MDXG trial....*Dehydrated Human Umbilical Cord Allograft in the Management of Diabetic Foot Ulcers*

ClinicalTrials.gov Identifier: NCT02844660

Costal Podiatry

Virginia Beach, Virginia, United States, 23464

Contact: Kathleen McGee 747-523-0414

Principal Investigator: Patrick Agnew, DPM

MedStar Union Hospital

Doctors: Stuart Miller, John Senatore, Lew Schon

Stuart Miller- lead investigator for the trial.

John Senatore- Posting on Twitter and message boards touting the stock.

Lew Schon- Mimedx Consultant 2008-2010, listed on his resume. Former President of AMERICAN ORTHOPAEDIC FOOT & ANKLE SOCIETY. **Not sure what his role is here but according to his bio:**

"In addition to his clinical practice, Dr. Schon is an award-winning researcher and investigator."

*"Dr. Schon's special interests include tendon disorders, deformities, fractures and ligament injuries, sports injuries and dance medicine."-----**Plantar Fascitis fits here!***

Hines VA in Chicago and Lovell VA in North Chicago

Dr. Garoufalis- Dr Garoufalis began and maintains a private practice in Chicago. He is the Associate Chief of the Podiatry Section at Jesse Brown and Hines VA Medical Centers. Dr Garoufalis is a past president of the Illinois Podiatric Medical Association and of the American Podiatric Medical Association.

EpiFix® Amniotic Membrane Allograft Receives APMA Seal of Approval

MiMedx Group, Inc. an integrated developer, manufacturer, and marketer of patent-protected regenerative biomaterials and bioimplants processed from human amniotic membrane, has announced that the American Podiatric Medical Association (APMA) has granted its Seal of Approval for the Company's EpiFix® Amniotic Membrane Allograft.

Dr. Matthew Garoufalis

"A major goal of APMA is to raise awareness by identifying products of exceptional quality that are manufactured with the consumer's comfort and safety in mind," said **Matthew Garoufalis, DPM**, Vice President of the APMA. "The APMA Seal of Approval is only granted when evidence of safety and effectiveness of a product has been established by an appropriate recognized laboratory, and/or clinical investigation applicable to the therapeutic (medical) agents under our consideration."

ANALYST DAY

October 13, 2015

Grand Hyatt, New York, NY
